

ClarityLive Leisure

Data Sheet Clarity Live Mobile App

We at Omnicore are always looking for ways to help improve your customer experience and provide more ways for you to interact with your customers and provide them with up to date information.

The ClarityLive Mobile App is fully customisable to carry your own branding and can be downloaded by your customers for free from the App Store and Google play.

The ClarityLive Mobile app directly interfaces into Clarity Live and once downloaded your customers can view the latest schedules, book courts and classes and interface directly into social media such as facebook and twitter. You can push messages out to your client base, increasing your ability to communicate quickly and effectively with them.

This is the perfect tool to enable you to retain existing members as well as attract new customers. Your services and facilities are in the 'customer's pocket' at all times!

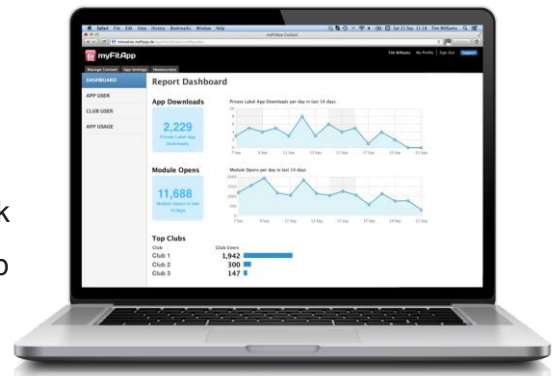

Full-featured, native apps, fast, easy-to-use and a proven success from owner-operators to major public sector trusts.

Summary of key Functionality;

- Available on both iPhone and Android
- Fully customisable for your own branding, can be configured on a per site basis
- Allow you to push messages out to your customers
- Ability to review latest pool schedules or class timetables
- Push notifications so customers can react to your messages
- Usage stats/reports to help you target your customers & improve service delivery

- Web Portal to manage your mobile App.
- Book courts and classes
- Usage stats/reports to help you target your customers & improve service delivery
- Links into Social Media via Twitter and Facebook
- Generate member referral campaigns (Roadmap item)

Ideally you need a mobile responsive web site to best capitalise this app. If required, Omnico can upgrade your website quickly and at a low cost.

Please contact us to arrange a demo of the new module and have an opportunity to discuss the many benefits of ClarityLive Mobile for your business!
